Supporting Queensland's only children's hospice...

It's any parent's worst nightmare to be told a child has a life-limiting condition and to "prepare for the worst".

But sadly, at any given time, around 3700 Queensland families are living with, loving and supporting a child with these life-limiting conditions.

Their emotional, physical and financial struggle is immense.

The new \$10 million Hummingbird House complex offers world-class support for these families by ensuring they have 24/7 access to respite and relaxation breaks along the journey. And, when the time comes, Hummingbird House offers a caring and supportive environment in which to say "goodbye" – the world's hardest word.

Hummingbird House is a place where kids can be kids, families can re-connect and precious memories can be created.

That's why the 2018 Charity Air Safari is so proud to be a Hummingbird House Foundation supporter.
