

# AgTech Investment Forum 2018

**24 MAY**

**Australia is on the cusp of an ideas boom and the 400M AgTech Investment Forum is giving you the chance to be part of this thought-provoking one-day event that will take place at the Toowoomba Armitage Centre on Thursday 24 May.**

Join national and international innovators, venture capitalist investors and agribusiness leaders from across the Asia-Pacific at the third annual 400M AgTech Investment Forum.

Hosted by Food Leaders Australia (FLA), 400M is the flagship 2018 event for understanding the future of AgTech in the Asia-Pacific.

**The 400M AgTech Investment Forum connects our brightest innovators with the region's most influential investors to accelerate the next generation of agricultural productivity, production specialisation and sustainability.**

This fire-starter event attracts and celebrates up and coming AgTech pioneers who will present their potentially world-changing projects to a panel of experts. The full-day Toowoomba event is expected to attract key thought leaders from across the Asia-Pacific who want an exclusive preview into the emerging technology and investment opportunities that will drive the next level of productivity and sustainability for agriculture.

**Food Leaders Australia (FLA) modelled this event on the highly successful investment-focused events in the US and Europe, with previous 400M AgTech participants securing funding to take their concept to the world.**

This year's 400M AgTech Investment Forum will include:

1. Keynote presentations
2. Panel discussions
3. AgTech pitches
4. Interactive Q&A opportunities
5. Night-time networking event
6. A showcase of the latest technologies taking the AgTech scene by storm
